1. **INTRODUCTION**

This Command Center Management SOP defines the procedures and controls for managing incidents regarding the Information Technology Critical Systems used in regulated activities. The purpose of this document is to provide a general overview of the Working of Information Technology Support Process. It includes Goals, Objectives, Scope, Policies, Procedures, Roles, Responsibilities, Process Diagrams, and associated activity descriptions.

2. **GOAL & OBJECTIVE**

The objective of Poonawalla Fincorp's Command Center is to restore the normal service operation as quickly as possible and to minimize the impact on the business for Poonawalla Fincorp authorized users. There by ensuring the availability of the IT Critical Services is maintained within the agreed SLA.

Incident is defined as any disruption occurred in Poonawalla Fincorp IT Services due to which Poonawalla Fincorp authorized user are not able to execute their day-to-day activities.

Primary goals of this process are:

- Monitoring, Identifying and Escalating to right team to resolve the incidents in a timely and cost-effective manner & within agreed service level targets.
- To provide information into knowledge database to enhance the capability of Command Center Operations resources to resolve the incident at first point of contact.
- Improve capability to accurately identify major incidents and escalate in a consistent manner.
- To improve Customer satisfaction.

3. **POLICY**

- All Incident must be recorded in Incident Management Tool currently known as PSD.
- Auto-assign and manual assign of incident shall be based on the type of auto created event or human reported incident.
- The Incident Management shall define the process to handle service interruption and service requests and internal customer complaints also.
- Every incident captured shall be classified, prioritized, and allocated based on impact to business.
- All incidents shall be monitored, and incident record updated on the progress till resolution and closure.
- The process of escalation shall be defined as Incidents.
- Poonawalla Fincorp Authorized users shall know on the progress of the incident till closure.
- Known Errors along with workarounds shall be made available for effective Incident Management.

- There shall be a defined process available to address major incidents.
- Conduct Root Cause Analysis (RCA) for all problems / Incidents tickets logged.
- The Incident Management performance shall be reported and reviewed periodically.

4. SLA COMPUTATION

a. prioritization:

Priority	Service Window	Response Time	Resolution Time	SLA Computation Method	Reference points
P1	24x7	30 mins	Resolution – 2 Hrs	Data Source: Incident Management Tool (PSD)	Resolution time = Date & Time at the creation of ticket in PSD – Date & Time when ticket was moved to “Closed” state in PSD
P2	24x7	30 mins	Resolution - 4Hrs	Data Source: Incident Management Tool (PSD)	Resolution time = Date & Time at the creation of ticket in PSD – Date & Time when ticket was moved to “Closed” state in PSD
P3	24x7	45 mins	Resolution - 6Hrs	Data Source: Incident Management Tool (PSD)	Resolution time = Date & Time at the creation of ticket in PSD – Date & Time when ticket was moved to “Closed” state in PSD
P4	24x7	60 mins	Resolution - 12 Hrs	Data Source: Incident Management Tool (PSD)	Resolution time = Date & Time at the creation of ticket in PSD – Date & Time when ticket was moved to “Closed” state in PSD

b. SLA:

Monitoring and managing for all In scope systems and responsible for the vendor coordination, excluding the Vendor dependency

- Critical P1: 98%
- High P2: 96%
- Medium P3: 94%
- Low P4: 91%

c. Services:

- Server Management
- Network and Security Management
- Database Management
- Application Monitoring

5. WORKFLOW

6. RACI:

Activity	Authorized User	Command Center	Domain Lead	Vendor
User Raises ticket / phone / email	R A	R	-	-
Auto Alerts Events	-	R A	C R	-
Is it in Scope?	-	R A	C	-
Transfer to Right Team	-	R A	-	-
Is it an Incident?	-	R A	C	-
Is it Command Center	-	R A	C	-
Raise Incident, Respond, Classify, Prioritize	I	R A	-	-
Incident Record Auto allocation	-	R A	-	-
Change Category and Priority	I	R A	C	-
Investigate	-	R A	C	-
Vendor Support Required?	I	R	A	-
Ticket is raised and Command Center to coordinate till closure	-	R A	-	-
Is it a Known error?	-	R A	-	-
Ticket is reassigned by Command Center	I	R A	R	-
Investigate and diagnose.	-	R	R C	R C
Resolved?	I	R A	R	R
Update KEDB	I	I	R A	-
Update the ticket with closure	I	R A	C	C

LEGENDS:

Responsible (R) - Those who do work to achieve the task.

Accountable (A) - The resource ultimately accountable for the completion of the task. There must be exactly one A specified for each task.

Consulted (C) - Those whose opinions are sought. Two-way communication.

Informed (I) - Those who are kept up to date on progress. One-way communication
